Message

Dear Participants,

On behalf of the International University Sports Federation, it is both a pleasure and an honor for me to welcome you to the 26th Summer Universiade to be held from August 12th to 23rd, in Shenzhen, China.

I would like to underline the efforts made throughout the last months by the Chairpersons of the FISU sports technical committees. They have worked continuously in close co-operation with the different National Sport Federations to give the opportunity to the students to compete in the best possible conditions. In essence, they were able to ensure the co-ordination between FISU, the Organising Committee and the International Sports Federations.

We look forward to your participation and we are sure that you will find in this manual all the necessary information that will help you participate in the competitions in a smooth and proper manner.

We would like to thank our Member Federations and the Organising Committee for their hard work in making this event the biggest in the FISU history. Without their enthusiasm and permanent involvement we would not have been able to integrate all partners (volunteers, judges and referees, private and public sectors, and athletes) in this event. This manual is the result of the efforts made by each and everyone in order for you to perform at your best.

I am convinced that this 26th Summer Universiade will be an outstanding success and a great sporting and human experience for the participants.

I and the entire FISU Family wish you all the best for a most successful 26th Summer Universiade.

Area: a total area of 1,953 square kilometers

Shenzhen is situated along the South China Sea, on the east side of the Pearl River estuary, 160 kilometers from Guangzhou and 35 kilometers from Kowloon, Hong Kong. It is one of China's most important tourist cities, widely known as the “capital of China's theme parks and tourist innovations”.

City Development

Shenzhen is China's first Special Economic Zone. It was the “window” and “experimental field” for China's policy of reform and opening-up, first established at the proposal of Deng Xiaoping. Shenzhen became an administrative city in 1979, a special economic zone in 1980, a sub-provincial city in 1981, and a city specifically designated in the state plan in 1988. During the past three decades, Shenzhen has been transformed from a small border town into a modern dynamic city noted for its economic prosperity, comprehensive infrastructure, sound legal system, beautiful environment and appropriate scale. Shenzhen epitomizes China's achievements in reform and opening-up during the past three decades.

Shenzhen now has the world's fourth largest container port and the fourth largest airport in the Chinese mainland. The city is the fourth most important tourist destination in the Chinese mainland, and an important center of high-technology, logistics, and finance in Asia. Shenzhen has the fastest economic growth in China, and ranks third in the Chinese mainland in terms of comprehensive strength, following Shanghai and Beijing. The metropolitan area of the Pearl River Delta, which includes Shenzhen, Hong Kong, Macao, Guangzhou and other cities, is one of regions in China with the most developed economy, the most thriving market, and the highest level of urbanization and internationalization. According to The Outline of the Plan for the Reform and Development of the Pearl River Delta (2008 - 2020), approved by the State Council, Shenzhen's strategic position in China's reform and development during the next few years will be as an experimental field for comprehensive reforms, a central city of the national economy, a national innovative city, an international city, and a model city for socialism with Chinese characteristics.

Tourism and Culture

Shenzhen stages more than 170 tourist and cultural celebrations. The most important include: Shenzhen International Tourist and Culture Festival, Beach Music Festival, “Window of the World” International Beer Festival, Overseas Chinese Town Carnival, and China (Shenzhen) International Cultural Industries Fair, Shenzhen International Folk Arts Festival, Festival of Asian Children's Art and many other activities for international cultural exchange. The International Magic Festival, sponsored by Happy Valley, attracts more than 200 top magicians every year.

Climate

Shenzhen has a sub-tropical, monsoon climate. The annual average temperature is 23.0℃. Winter is warm with some cool periods. Summer is long, but not extremely hot. Shenzhen is sunny, but abundant in rain.

The climate data in August is as follows:

Average Temperature	Average Minimum Temperature	Average Maximum Temperature	Extreme Minimum Temperature	Extreme Maximum Temperature

Emblem:

The emblem of the Universiade Shenzhen 2011 is “Happy U”. The U shape, made up of dots in different

The broader symbolism of “Happy U” highlights the vitality and inclusiveness of the young city of Shenzhen and expresses the city's openness, inclusiveness, creativity, youthfulness, fashion and imagination.

Universiade SHENZHEN 2011

“U” is rich in meanings. It is a homonym for “You”, and has the same initial sound as “University”, “Union”, “Universe” and many other words. The “U” can be interpreted in six different ways: 1. It is a happy U, suggesting beautiful colors, liveliness, energy, and the theme of a happy reunion of youth from different parts of the world; 2. It is an open U, consisting of dots in five different colors. This simple but powerful symbol is rich in meaning; 3. It is an inclusive U. The colored dots can evolve into smiles, balloons, garlands and water droplets; 4. It is a youthful U. The U, symbolizing youthfulness and vitality, can evolve into different sports related images that can be used for the different sports of the Universiade; 5. It is a cosmopolitan U. The various colors and sizes of the dots indicate a gathering of people of different races and ethnic groups; 6. It is a futuristic U, a forward-looking design projecting the Universiade Shenzhen 2011 in an innovative way.

Slogan:

The slogan of the Universiade Shenzhen 2011 is “Start Here”. This slogan conveys the message, “It started from Shenzhen”. Three decades ago, China began its policy of reform and the establishment of special economic zones in Shenzhen. In 1992,

Deng Xiaoping inspected Shenzhen and proposed the beginning of the reform and opening-up policy. During Universiade Shenzhen 2011, youth from five continents will meet and cooperate to begin a new era of beauty, harmony, and joy.

Mascot:

The mascot of the Shenzhen Universiade is “UU”. This mascot has a joyous, sweet and somewhat mischievous image. The gradual color changes and partial highlighting texture provide a sense of the future. The mascot has a lively and lovely shape, conveying an atmosphere of joy, youth and fashion. “UU” symbolizes the vitality and passion of young people; expresses the host city's expectation for a beautiful Universiade Shenzhen 2011; and suggests that the Universiade is a stage for self-expression of the world's youth—regardless of ethnicity, race or religion.
